Board: SSC, Percentage:90%	

PROJECTS

Project Name: E-commerce website (REACT)

Description:

A fully functional e-commerce website using React, a popular JavaScript library for building user interfaces. The website provides a seamless shopping experience, allowing users to browse through various products, add items to their cart, and complete purchases.

Project Name: Bubble Game (JavaScript)

(<https://varunreddy021.netlify.app/>)

Description:

Bubble Game is an interactive web app offering fun gameplay. It features intuitive navigation with sections like "HIT," "SCORE," and "TIMER" to provide players with essential information. The main gameplay involves clicking on bubbles containing random numbers. Matching the hit number earns players 10 points, with both numbers refreshed afterward. A 60-second time limit adds urgency to the game.

Project Name: Portfolio Website (React)

(<https://main--varun021-portfolio.netlify.app/>)

Description:

My portfolio website serves as a showcase of my skills, projects, and experiences as a web developer. Built entirely using React, this website offers a visually appealing and user-friendly interface to navigate through my work and learn more about me.
